Client	MCM Capital Solutions						
			Address 14100 Palmetto Frontage Road, Ste 300 Miami Lakes, FL 33016				

REVISION REQUEST 06/10/2026:

1.The appraisal for this property indicates the property to be vacant but the pictures show it to be occupied. Please correct or comment if the subject property is staged.

The subject property was not occupied at the time of the inspection. The dwelling appeared to be staged.

2. Please label "first floor" and "second floor" in sketch.

Revised

3. The Bath count inconsistent adjustment for comp#4,however other comps used in the report, Please explain.

Bath adjustments are consistent. Bath adjustments are based on \$4500 for full bath and \$3000 for half bath.

RE: 116 Rose Ter NC, LLC
116 Rose Terrace
Wadesboro, NC 28170
File No. HLC2606943
Case No.

Dear Ascribe, LLC.,

In accordance with your request, I have personally inspected and prepared an appraisal report of the real property located at:

116 Rose Terrace , Wadesboro, NC 28170

The purpose of this appraisal is to estimate the market value of the property described in the body of this appraisal report.

Enclosed, please find the appraisal report which describes certain data gathered during our investigation of the property. The methods of approach and reasoning in the valuation of the various physical and economic factors of the subject property are contained in this report.

An inspection of the property and a study of pertinent factors, including valuation trends and an analysis of neighborhood data, led the appraiser to the conclusion that the market value, as of 06/08/2026 is:

\$ 336,000

The opinion of value expressed in this report is contingent upon the limiting conditions attached to this report.

It has been a pleasure to assist you. If I may be of further service to you in the future, please let me know.

Respectfully submitted,

Signature: _____

Summary of Sales Comparison Approach See additional comments...

Indicated Value by Sales Comparison Approach \$ 336,000

RECONCILIATION

Indicated Value by: Sales Comparison Approach \$ 336,000	Cost Approach (if developed) \$	Income Approach (if developed) \$
Sales comparison approach was given the most consideration due to the strong market data available. The cost approach was considered, however, it is not a reliable approach to value in the subject's market. The income approach was considered, but not developed, due to the lack of sales data of comparable investment homes to be able to determine a Gross Rent Multiplier.		
This appraisal is made ☒ "as is," ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: This appraisal is made with the property in "as-is" condition. No personal property included.		
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 336,000 , as of 06/08/2026 , which is the date of inspection and the effective date of this appraisal.		

Uniform Residential Appraisal Report

ADDITIONAL COMMENTS

Appraiser Observation & Inspection Limitations

The appraiser’s observation of the property is limited to a non-invasive visual observation of areas that are visible and readily accessible on the effective date of the appraisal. The term “inspection” used in this report refers only to this limited visual observation conducted for valuation purposes. This is not a home inspection, building inspection, structural evaluation, environmental assessment, code-compliance review, or engineering analysis. The appraiser is not trained or licensed to identify hidden, concealed, or non-visible conditions including, but not limited to: mold, rot, moisture intrusion, structural movement, foundation issues, electrical faults, plumbing defects, or HVAC performance. No warranties or guarantees, expressed or implied, are made regarding the condition or functionality of any building component or system.

The appraiser observed readily accessible areas only and did not move personal property, disturb finishes, access concealed areas, or operate systems in a manner beyond normal homeowner use.

Environmental & Latent Conditions

The appraisal does not guarantee that the property is free of defects or environmental hazards. Mold and other issues may be present in areas not visible to the appraiser. Latent or concealed conditions are beyond the scope of this appraisal.

Intended Use & Intended User

The Intended User of this appraisal report is the identified lender/client.

The Intended Use is to assist the lender in evaluating the subject property for a mortgage finance transaction, subject to the Scope of Work, reporting requirements of this form, and the Definition of Market Value.

No additional intended users are identified or authorized.

Appraiser Competency

The appraiser has the knowledge and experience necessary to appraise this property type within its market area.

Data Sources

The appraiser has access to appropriate public and private data sources, including MLS, tax assessment records, public land records, and other reliable market data.

E&O Insurance Disclosure Disclaimer

Any inclusion of Errors & Omissions (E&O) insurance information in this report is provided only to meet client requirements and does not create or expand liability beyond USPAP or the stated Scope of Work. The existence or limits of E&O coverage shall not be interpreted as an admission of responsibility, nor does it grant any third party reliance or rights.

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowner's Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Sydney Plyler	File No. HLC2606943
Uniform Residential Appraisal Report	Case No.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Summary of Sales Comparison Approach

Borrower 116 Rose Ter NC, LLC				
Property Address 116 Rose Terrace				
City Wadesboro		County Anson	State NC	Zip Code 28170
Lender/Client MCM Capital Solutions		Address 14100 Palmetto Frontage Road, Ste 300 Miami Lakes, FL 33016		

SCOPE OF APPRAISAL

The scope of the appraisal includes an interior and exterior inspection of the subject property and observation of the surrounding area. Information such as property values, supply and demand, etc. will be gathered by the appraiser. Information on comparable land sales and sales of comparable properties will be gathered and analyzed for the sales comparison approach. The cost and income approaches will be considered and developed if felt appropriate. The data will be researched and verified from reliable public/private sources. The opinions and conclusions will be reported in this appraisal. This report was prepared in accordance with the requirements of the Appraisal Report option of USPAP Standards Rule 2-2(a).

This appraisal is based on the information gathered by the appraiser from public records, Multiple Listing Services, the County and other identified sources; interior and exterior inspection and measurements of the subject property improvements, identification and characterization of the neighborhood and selection of comparable sales, listing and/or rental within the subject market area. The financial market conditions of the subject neighborhood is researched and described in the Market Conditions Summary Report. The required original sources for the comparables are shown in the Data Resource selection of the market grid along with sources of confirmation if available. Adjustments are based on paired sales analysis and market research. Due to large sites, gated entries and/or wooded landscape some photographs of the comparable properties are extracted from the MLS in order to provide a useful image of the improvements. When MLS photos are used it is to protect the privacy of the homeowner who might be outside the home at the time of inspection and/or the property has gone through some changes to the exterior such as paint and landscaping, and/or the home can not be seen from the main road and privacy posters are present. MLS photos represent the condition of the comparables at the time of sale. The sources and data considered to be reliable have been used. The extent of analysis applied to this assignment is further imparted within the report and the appraisers certification.

The scope of the inspection was not sufficient to reveal potential structural defects hidden by floor or wall coverings or any other hidden or unapparent conditions of the property. It is assumed by this appraiser that all mechanical equipment and appliances are in working condition and that all electrical components, the plumbing components and the roofing are adequate unless otherwise stated within this report. It is the clients responsibility to order the appropriate inspections. The appraiser does not have the skill or expertise needed to make such inspections and assumes no responsibility for these items. The scope of this report includes interior and exterior inspections of the subject improvements.

The appraiser is not a home inspector and this appraisal in not a home inspection report. The appraiser performed a visual inspection of accessible areas and the report cannot be relied upon to disclose conditions and/or defects in the property. This report does not take into consideration whether potentially hazardous substances or materials were used in the construction or maintenance of the subject property, nor does the appraiser have the expertise to detect such substances.

Any extraordinary assumptions or hypothetical conditions used in the report may have affected the assignment results.

All information used in this report is contained in the work file, computer, and/or office.

NEIGHBORHOOD DESCRIPTION

The subject property is located on Rose Terrace within the town limits of Wadesboro in Anson County. The neighborhood consists primarily of older single-family residences constructed from the 1900s through the 1980s, with varying levels of renovation and modernization. Residential development is generally stable with a mixture of owner-occupied and tenant-occupied properties. Neighborhood conveniences, schools, employment centers, and community services are available within Wadesboro, while additional commercial and employment opportunities are available in nearby Monroe and Rockingham. Market demand in the area is typical for a small-town residential market, and the neighborhood remains generally stable with no apparent adverse influences affecting marketability.

The 15% other on page 1 of the appraisal report is vacant land.

The subject's appraised value is above the predominant value. It is not over improved.

MARKET CONDITIONS

Based on analysis of current market activity, competing inventory, and recent closed sales most comparable to the subject, the typical exposure time for similar properties is estimated at 3-6 months. This estimate reflects normal marketing efforts and typical seller motivation. The exposure time definition is consistent with the 2024 2025 edition of USPAP.

Exposure Time: The estimated length of time the subject property interest would have been offered on the market prior to a hypothetical sale at market value on the effective date of the appraisal.

Marketing Time: The estimated length of time it may take to sell a property at the concluded market value immediately

Borrower 116 Rose Ter NC, LLC						
Property Address 116 Rose Terrace						
City Wadesboro	County	Anson	State	NC	Zip Code	28170
Lender/Client MCM Capital Solutions		Address 14100 Palmetto Frontage Road, Ste 300 Miami Lakes, FL 33016				

following the effective date of the appraisal, assuming typical market conditions and typical marketing effort.

SITE HIGHEST AND BEST USE

The rationale for the highest and best use is that the subject is located in a residential subdivision/area. The chances of a zoning change is very low. The current use is the highest and best use as it is legally permissible, physically possible, maximally productive, and financially feasible.

SITE CONDITIONS

A physical survey was not available at the time of inspection. This appraisal assumes that there are no easements or encroachments that would adversely affect the site. There were not any environmental hazards noted at the time of the inspection of the subject property. The opinion of value estimated in this report is based on the assumption that the property is not negatively affected by the existence of hazardous substances or detrimental environmental conditions. The appraiser is not an expert in the identification of hazardous substances or detrimental environmental conditions. The appraisers routine inspection of the inquires about the subject property did not develop any information that indicated any apparent significant hazardous substances or detrimental environmental conditions which would affect the subject property negatively. It is possible that tests and inspections made by a qualified hazardous substances and environmental expert would reveal the existence of hazardous materials and environmental conditions on or around the property that would negatively affect its value. Dwellings built prior to 1978 may contain lead based paint. The above comments include but are not limited to Mold.

According to the survey provided to the appraiser, there is a easement located on the left side of the property providing driveway access for the adjacent property. This is common in the market area and has no negative impact on the subject's marketability.

The appraiser did not observe any commercial, agricultural/farming, or ranching activities at the time of the inspection. The subject property is not an income producing farm. Current zoning is legal, the subject can be rebuilt if damaged/destroyed according to Anson County Zoning Ordinance.

COUNTY APPROVAL

Permits were not viewed and it is assumed that all improvements (if performed) were completed with county approval, unless otherwise noted.

ADDITIONAL FEATURES

The subject property was measured using ANSI Standard Z765-2021. The sketch was completed using a digital sketch program. Layout is approximate and intended solely to illustrate measurement boundaries.

PROPERTY CONDITION

The subject property is a large, renovated two-story dwelling built in 1920. The dwelling containing 3,112 square feet of gross living area situated on approximately 0.57 acres. The floor plan is considered functional and adequate for the market area, with no functional or external inadequacies noted. At the time of inspection, the utilities were on and appeared to be functioning as intended.

According to information provided by the listing agent, the property has received several updates over time, including a newer gas pack HVAC system, newer water heater, newer dishwasher, replacement flooring in the bathroom and laundry room, and storm windows installed in the living area adjacent to the kitchen. The roof is reported to be approximately 10 years old. These updates contribute positively to the subject's overall condition and market appeal and have been considered in the appraisal analysis.

The interior floor plan appeared typical and is considered adequate for market expectations in this area. Room placement, circulation patterns, and access points are consistent with homes of similar age and style. No functional obsolescence impacting marketability or utility was observed at the time of inspection.

All utilities were in operation at time of inspection. This includes heat, electric, plumbing, hot water heater and air conditioning. HVAC and heating system was in operation at time of inspection and appeared to be working properly.

At the time of the inspection, smoke and CO detectors were installed in the subject dwelling. According to the 2018 North Carolina Code Requirements, In existing dwellings, where interior alterations, repairs, fuel-fired appliance replacements, or additions requiring a permit occurs, or where one or more sleeping rooms are added or created, carbon monoxide alarms shall be provided in accordance with Section 315.1. R315.3 Alarm requirements. Smoke alarms are required for existing dwellings.

The Appraiser is not responsible for any condition not easily observable and within the expertise of a Real Estate Appraiser, who is not a Home Inspector, Builder/Contractor, Building Inspector, Zoning Officer, Surveyor, or Engineer and can not be held responsible for such observations such expertise belonging to such professionals is required to be readily observable at the time of inspection. Please see attached photos of the Subject Property taken as the Subject was viewed by the appraiser.

MARKET COMMENTS

A six month (or more in some cases) market search was conducted utilizing data sources which included MLS, Tax insight, and local realtors.

Borrower 116 Rose Ter NC, LLC						
Property Address 116 Rose Terrace						
City	Wadesboro	County	Anson	State	NC	Zip Code 28170
Lender/Client	MCM Capital Solutions		Address 14100 Palmetto Frontage Road, Ste 300 Miami Lakes, FL 33016			

SALES COMPARISON APPROACH

The subject property is a large, renovated two-story dwelling containing 3,112 square feet of gross living area situated on approximately 0.57 acres. Due to the subject's size, age, condition, and location within the Wadesboro market area, comparable sales were limited. The appraiser conducted an extensive search of the market area and determined that Comparable Sales 1 through 4 represent the only comparable closed sales within 15 miles of the subject property that sold within the twelve months preceding the effective date of the appraisal. These sales were considered the most relevant and reliable market data available. All of the comparables are located in the subject's neighborhood and market area. The sales provided bracket the subject's square footage, and age. The adjustments made to the sales represent the appraiser's attempt to isolate and compensate for significantly dissimilar features. Adjustments for significantly dissimilar features or condition approximate market reactions and are based on paired sales analysis data and market research retained in the appraiser's files and are not necessarily based on cost.

To support the neighborhood and market trend analysis, the appraiser reviewed MLS market data within the subject’s competitive market area for the twelve months preceding the effective date of the appraisal. The analysis was based on site-built residential properties located within approximately ten miles of the subject with similar gross living area and age. Data was obtained from Canopy MLS and summarized in the attached Market Conditions (1004MC) report. The market data indicates overall stable market conditions over the previous twelve months. Exposure times and marketing times remain generally competitive for the subject’s market area. The median sale-to-list price ratio ranged from approximately 95.73% to 96.77% . Inventory levels remain limited within the subject’s market area, with a low supply of competing properties and continued market activity for similar homes. Based on the market data analyzed, the appraiser concluded that the subject’s market reflects stable values over the prior twelve months. Therefore, no negative market condition adjustments were warranted to the comparable sales utilized in the report. The pending sale was adjusted for sale-to-list price ratio of 96.25%.

Adjustment amounts made for site are the differences in total lot value between that comp and the subject. Land in the subject's market area can vary in price substantially. Land/site values take location, size, access to water and sewer, road responsibility, restrictions, community amenities and other factors into consideration. Comps 1 and 2 are felt to be similar in total net land value and no adjustments were warranted for site. Comps 3 through 6 were adjusted based on the difference in total net land value between that comp and the subject.

Quality ratings considers design, build, interior and exterior materials used, custom design and features, workmanship, and finishes. Adjustments for the differences in quality of construction are based on the inspection of the subject and other information regarding the quality of the comparables gathered in the course of exterior inspections of the comparables and information from parties familiar with the interior quality of the comparables. All of the comps are felt to be overall similar to the subject in quality. No adjustment for quality was warranted.

Age estimates made for the Comparables are based on field observations, assessor's records and information from parties familiar with the updating and maintenance of the improvements. The effective age of a property is its age compared to other competing properties with similar functionality. It is the actual less the age which has been taken off by maintenance, structural reconstruction, updating, removal of functional inadequacies and modernization of equipment. Comps 2 and 3 have some updates however, they have not been updated recently like the subject. They are felt to be in inferior condition to the subject and were adjusted for condition based on paired data analysis of market reaction to differences in condition within the subject’s market area. The adjustments take into consideration the difference in age between the comp and the subject. Comps 4 and 6 have not been updated recently, they are felt to be in fair to average condition. The comps were adjusted for condition based on paired data analysis of market reaction to differences in condition within the subject’s market area. The adjustments take into consideration the difference in age between the comp and the subject.

Adjustments for additional features, outdoor features, and other site improvements are based on the estimated differences between the contributory value of the subject's amenities and the contributory values of the amenities of each respective comparable. Adjustments for significantly dissimilar features or condition approximate market reactions and are based on paired sales analysis data and market research retained in the appraiser's files.

Comps 5 and 6 are active listings provided as additional information only. They are not included in the final reconciliation of the sales. The listings were adjusted for a list to sale ratio based on market analysis of listings (see Market Conditions Addendum). The four comparable sales analyzed are recent closed transactions located within the subject’s competitive market area. They represent the most similar and most recent sales available at the time of this appraisal. After researching the market area, the appraiser determined the market to be fairly stable over the past twelve months. No time adjustment was warranted for the sales provided. All four sales are considered reliable indicators of value for the subject property. The adjustments applied represent the appraiser’s effort to isolate and account for material differences in features, site characteristics, and overall utility.

Greatest weight is given to Comparable Sale 1 due to its close proximity to the subject, similar gross living area, room count, quality, condition, site size, and overall utility. Comparable Sale 3 is also considered a strong indicator of value due to its similar age, condition, and overall market appeal, although adjustments were required for site size, gross living area, garage count, and sunroom amenity. Comparable Sale 2 received less weight due to its significantly smaller gross living area and finished basement area, resulting in larger overall adjustments.

Comparable Sale 4 was considered in the analysis and provides additional market support; however, it is given less weight in the final reconciliation. While located near the subject and requiring minimal net adjustment, the sale is substantially larger than the subject at 4,211 square feet and is in inferior condition, requiring significant adjustments for condition, room count,

Sydney Plyler

COMMENT ADDENDUM

File No. HLC2606943

Case No.

Borrower 116 Rose Ter NC, LLC							
Property Address 116 Rose Terrace							
City	Wadesboro	County	Anson	State	NC	Zip Code	28170
Lender/Client MCM Capital Solutions		Address 14100 Palmetto Frontage Road, Ste 300 Miami Lakes, FL 33016					

and gross living area. As a result, it is considered a secondary indicator of value.

The adjusted sale prices of the four closed comparable sales range from \$301,700 to \$350,500. After considering the relative strengths and weaknesses of each comparable sale, with primary emphasis placed on Comparable Sales 1 and 3 and secondary consideration given to Comparable Sales 2 and 4, the market value of the subject property is concluded to be \$336,000. This value is supported by the available closed sales and active listing data and reflects the subject's overall size, condition, utility, and appeal within the current market.

Due to the subject's square footage age and condition, large adjustments were unavoidable. It is typical to exceed 10/15/25% adjustments for homes of this square footage and age in the market area. This does not have a negative impact on the subject property.

CONDITIONS OF APPRAISAL

This appraisal has been developed and reported under the premise that the subject property is appraised as-is, reflecting its current physical condition and market influences as of the effective date of the appraisal. No assumptions have been made regarding repairs, alterations, or completion of improvements unless otherwise specifically stated in this report.

The appraiser has not performed any services regarding the subject property within the three years preceding this assignment and has no current or prospective interest in the property or the parties involved. The appraiser certifies that all analyses, opinions, and conclusions were developed independently and without influence from the client, borrower, real estate agents, or any other party to the transaction. The value opinion has been reconciled in a manner consistent with USPAP and the scope of work performed.

This appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended, and all applicable regulatory requirements in effect on the date the appraisal certification was signed.

Market Conditions Addendum to the Appraisal Report

MARKET RESEARCH & ANALYSIS

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address	116 Rose Terrace	City	Wadesboro	State	NC	ZIP Code	28170
Borrower	116 Rose Ter NC, LLC						

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include that data in the analysis. If data sources provide all the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Median Comparable Sales Days on Market	34	148	0	☒	Declining	☐	Stable	☐	Increasing
Median Comparable List Price	332,250	335,000	347,450	☒	Increasing	☐	Stable	☐	Declining
Median Comparable Listings Days on Market	286	130	124	☒	Declining	☐	Stable	☐	Increasing
Median Sale Price as % of List Price	95.73	96.77	0.00	☐	Increasing	☐	Stable	☒	Declining
Seller-(developer, builder, etc.) paid financial assistance prevalent?	☒ Yes	☐ No		☐	Declining	☒	Stable	☐	Increasing

Explain in detail seller concessions trends for the past 12 months (e.g. seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs condo fees, options, etc.)

Seller contributions vary from one closing to the next with no standard percentage or range. Typical closing costs in the subject's area have a median range of approximately \$2,000 to \$3,000. As indicated from the closed sales utilized in this report there does not appear to have an increase in seller paid contributions.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

While there are short sale and foreclosure properties in the subject's market area, they do not appear to have a prevalent effect.

Cite data sources for above information.

CMLS

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales, and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

After completing the research listed above, there was limited comparable market data available. The search included properties similar in age, quality, and style in the subject's immediate neighborhood, as well as, the surrounding competing market. Due to the limited market data available, the results listed above could be unreliable. The market trend was determined by analyzing other properties in the subject's market area. The overall market trend was determined to be stable.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project, complete the following: Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend					
Total # of Comparable Sales (Settled)				☐	Increasing	☐	Stable	☐	Declining
Absorption Rate (Total Sales/Months)				☐	Increasing	☐	Stable	☐	Declining
Total # of Active Comparable Listings				☐	Declining	☐	Stable	☐	Increasing
Months of Unit Supply (Total Listings/Ab. Rate)				☐	Declining	☐	Stable	☐	Increasing

Are foreclosures sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

APPRAISAL AND REPORT IDENTIFICATION

This Appraisal Report is one of the following types:

- ☒ Appraisal Report This report was prepared in accordance with the requirements of the Appraisal Report option of USPAP Standards Rule 2-2(a).
☐ Restricted Appraisal Report This report was prepared in accordance with the requirements of the Restricted Appraisal Report option of USPAP Standards Rule 2-2(b). The intended user of this report is limited to the identified client. This is a Restricted Appraisal Report and the rationale for how the appraiser arrived at the opinions and conclusions set forth in the report may not be understood properly without the additional information in the appraiser's workfile.

ADDITIONAL CERTIFICATIONS

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to parties involved
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

PRIOR SERVICES

- ☒ I have **NOT** performed services, as an appraiser or in another capacity, regarding the property that is the subject of the report within the three-year period immediately preceding acceptance of this assignment.
- ☐ I **HAVE** performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

PROPERTY INSPECTION

- I ☒ **HAVE** made a personal inspection of the property that is the subject of this report.
- I ☐ have **NOT** made a personal inspection of the property that is the subject of this report.

APPRAISAL ASSISTANCE

Unless otherwise noted, no one provided significant real property appraisal assistance to the person signing this certification. If anyone did provide significant assistance, they are hereby identified along with a summary of the extent of the assistance provided in the report.

ADDITIONAL COMMENTS

Additional USPAP related issues requiring disclosure and/or any state mandated requirements: _____

MARKETING TIME AND EXPOSURE TIME FOR THE SUBJECT PROPERTY

- ☒ A reasonable marketing time for the subject property is 90-180 day(s) utilizing market conditions pertinent to the appraisal assignment.
- ☒ A reasonable exposure time for the subject property is 90-180 day(s).

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: *Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).*

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: *The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.*

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: *The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. It's estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.*

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: *The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.*

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: *Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.*

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: *Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.*

Quality Ratings and Definitions

- Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.
- Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.
- Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.
- Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.
- Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.
- Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Requirements - Definitions of Not Updated, Updated and Remodeled

Not Updated

- Little or no updating or modernization. This description includes, but is not limited to, new homes.**

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

- The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.**

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components meet existing market expectations. Updates do *not* include significant alterations to the existing structure.

Remodeled

- Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.**

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

- Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

SINGLE FAMILY COMPARABLE RENT SCHEDULE

This form is intended to provide the appraiser with a familiar format to estimate the market rent of the subject property. Adjustments should be made only for items of significant difference between the comparables and the subject property.

ITEM	SUBJECT	COMPARABLE NO. 1			COMPARABLE NO. 2			COMPARABLE NO. 3		
Address	116 Rose Terrace Wadesboro, NC 28170	91 Marsh Ave Wadesboro, NC 28170			162 Aspire Cir Wingate, NC 28174			1212 Hopewell Church Rd Peachland, NC 28133

Comments on market data, including the range of rents for single family properties, an estimate of vacancy for single family rental properties, the general trend of rents and vacancy, and support for the above adjustments. (Rent concessions should be adjusted to the market, not to the subject property.)										
The appraiser reviewed all rentals listed in public record and information provided by realtors and local experts. The three rental comparables provided are the best comparables available in the subject's market area. Based on market data, no adjustments for square footage were warranted. The comps were adjusted for bath count, bedroom count and car storage amenities. Comp 1 is inferior in condition and was adjusted based on paired data analysis of comparable rental properties. Comp 3 is in superior condition and was adjusted based on paired data analysis of comparable rental properties. The three rental comparables provided a range of \$1920 to \$2095. Based on these comparables the subject market rent is \$1950.										
Final Reconciliation of Market Rent:										
The three rental comparables provided a range of \$1920 to \$2095. Based on these comparables the subject market rent is \$1950.										
I (WE) ESTIMATE THE MONTHLY MARKET RENT OF THE SUBJECT AS OF 06/08/2026 TO BE \$ 1,950
