Neighborhood Description This is located in Angleton, Texas. This area has a wide range of properties including manufactured homes, frame homes on blocks, to larger custom built brick homes. Homes in this area are generally situated on larger lots ranging from .20 to over 20 acres in size. It is common and typical for homes in this area to rely on private well and septic systems. It is also common to have large out buildings, ponds and other significant amenities.												
Market Conditions (including support for the above conclusions) Market Conditions Conclusion noted above in the "housing trends" section represent an analysis of properties that are competitive with the subject property. See attached 1004 MC, graphs, and tables for supporting information.

Uniform Residential Appraisal Report

ADDITIONAL COMMENTS

***The appraiser's search parameters began with an MLS search for single family homes that have sold within the prior twelve months. All comparables that have been analyzed were targeted from the subjects general area. It is felt that willing buyers would search for homes with these parameters and locational factors. Due to limited data in this time frame, it was necessary to broaden my time frame and search area for data. The search parameters for the comparables in this report were constructed of homes sitting on properties over one acre , that are located in Angleton, Lake Jackson, Richwood and that contain over 2,700 square feet of living area. ***

SUPPORT FOR SITE VALUE AND SITE VALUE ADJUSTMENTS IS NOTED BELOW:

HARMLS #60645985; 3007 CR-807a is 1.08 ac in size and sold on 05/01/2026 for \$120,000 or \$110,507/ac.

HARMLS #79020490; 32742 & 32802 Bayou Ben is 2.00 ac in size and sold on 09/29/2025 for \$119,000 or \$59,711/ac.

HARMLS #65646300; 21802 Chenango Lake Dr. is 1.53 ac in size and sold on 03/13/2026 for \$116,000 or \$76,115/ac.

HARMLS #79439236; 22819 Pittman Dr. is 2.10 ac in size and sold on 08/29/2025 for \$113,000 or \$53,783/ac.

HARMLS #71131240; 22911 Sugar Mill Ct. is 2.00 ac in size and sold on 07/17/2025 for \$115,000 or \$57,471/ac.

Subject site value is at estimated \$80K per acre, which is within the range of the comps noted above.

ALL UTILITIES ARE ON AND IN WORKING ORDER

COMMENTS ON MARKET CHANGE ADJUSTMENTS: SEE "SALE TIME ADJUSTMENT FACTOR ADDENDUM" FOR AN EXPLANATION OF TIME ADJUSTMENTS. One month ago the median was \$450,000. Twelve months ago the median was \$606,750. This is an aberation as there are monthly data points above and below the median price trend line. The median price trend line is flat to slightly declined. With demand/supply in balance and market times less than 60 days, the overall market is stable. No time adjustments are made as a result.

THE SUBJECT AND ALL COMPARABLES ARE SITUATED IN THE SAME MARKET AREA. SITE ADJUSTMENTS ARE MADE FOR SIGNIFICANT SITE SIZE DIFFERENCES AT A RATE OF \$80K PER ACRE FOR WATERFRONT LOTS AND \$55K PER ACRE FOR DRY LOTS WITH A 30K PREMIUM FOR WATERFRONT LOCATION. THE SUBJECT HAS BEEN TOTALLY UPDATED RECENTLY AND THE CONDITION IS RATED AS C2. SUPPORT FOR THESE CONDITION ADJUSTMENTS COULD NOT ACCURATELY BE EXTRACTED USING PAIRED SALES OR REGRESSION ANALYSIS. FOR THIS REASON, THE CONDITION ADJUSTMENT IS ESTIMATED AT 10% OF THE MEDIAN PRICE OF THE DEFINED NEIGHBORHOOD WHICH IS \$47,000. THE ADJUSTMENT MADE FOR DIFFERENCES IN LIVING AREA IS EXTRACTED FROM THE COMPARABLES ON A PERCENTAGE BASIS OF THE NET MEDIAN PER SQUARE FOOT COST OF THE COMPARABLE PROPERTIES. THIS IS REFLECTIVE OF A TYPICAL PERCENTAGE, KNOWING THAT LAND VALUE IS INCLUDED IN THE GROSS FIGURE. GENERALLY, THIS FACTOR IS 40% TO 50% OF THE MEDIAN ASSUMING TYPICAL LAND/VALUE RATIOS. OUR ADJUSTMENT IS \$88 PER FOOT WHICH IS 40% OF THE MEDIAN PRICE PER FOOT OF \$220 PER FOOT (R). SOME COMPARABLES ARE ADJUSTED FOR DIFFERENCES IN PARKING FACILITIES AND/OR EXTERIOR AMENITIES. WHILE IT IS NOT POSSIBLE TO ACCURATELY EXTRACT A PARKING FACILITY OR EXTERIOR AMENITY DIFFERENCE ADJUSTMENT IN EITHER PAIRED SALES OR THE REGRESSION ANALYSIS, THE ADJUSTMENT MADE IS AN ESTIMATE BASED ON AND SUPPORTED BY THE REGIONAL ADJUSTMENT RANGES FOR THESE ITEMS. THE ADJUSTMENT FOR PARKING IS AT \$12,000 PER GARAGE BAY AND \$6000 PER CARPORT BAY. THE AMENITY ADJUSTMENTS ARE UP TO 10% OF THE MEDIAN.

IT IS REALIZED THAT THE APPRAISED VALUE EXCEEDS THE PREDOMINANT VALUE FOR THE NEIGHBORHOOD. THE SUBJECT IS NOT OVER IMPROVED FOR THIS MARKET AS NOTED BY THE COMPARABLES. THE SUBJECT IS WITHIN THE VALUE RANGE OF THE NEIGHBORHOOD AND THE FACT THAT IT EXCEEDS THE PREDOMINANT VALUE HAS NO ADVERSE AFFECT ON VALUE OR MARKETABILITY OF THE SUBJECT PROPERTY. IT IS REALIZED BY THIS APPRAISER THAT SOME OF THE NET, LINE AND/OR GROSS ADJUSTMENTS EXCEED PREFERRED LEVELS. ALSO, THE DATES OF SALE OF SOME COMPARABLES ARE OLDER THAN PREFERRED. THIS COULD NOT BE AVOIDED DUE TO A LIMITED NUMBER OF SALES MORE SIMILAR TO THE SUBJECT THAT ARE AVAILABLE TO INCLUDE.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae.)

Provide adequate information for the lender/client to replicate your cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) The opinion of site value is based on similar type lot sales in the subject's market area, if possible. Other avenues of site value development include information from area builders, brokers and developers in the real estate market.

Summary of Listing Comparison Approach	THIS LISTINGS WAS ADJUSTED UNDER DATE OF SALE TO REFLECT THE LIST/SALES PRICE RATIO OF THE PROPERTY. THE LIST TO SALES PRICE RATIO HAS BEEN STEADY TO INCREASING DUE TO CONTINUED INCREASED DEMAND AND REDUCED INVENTORIES. THE LISTING DOES TEND TO INDICATE A HIGHER INDICATED VALUE COMPARED TO THE SETTLED SALES. THIS IS TYPICAL OF LISTINGS IN A STABLE TO INCREASING MARKET PATTERN. THE ADJUSTMENT MADE FOR LIST/SALES PRICE RATIOS IS THE AVERAGE OF THE LIST/SALES PRICES OF THE PRIOR 12 MONTHS AS NOTED ON THE 1004MC FORM. THE ADJUSTMENT IS AT 2.5% (R) AND THE ACTUAL AMOUNT OF ADJUSTMENTS IS ALSO ROUNDED.

Market Conditions Addendum to the Appraisal Report

MARKET RESEARCH & ANALYSIS

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address	692 County Road 605	City	Angleton	State	TX	ZIP Code	77515-7667
Borrower	Portfolio.AI 010 LLC						

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include that data in the analysis. If data sources provide all the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend

Seller-(developer, builder, etc.) paid financial assistance prevalent?	☐ Yes	☒ No		☐	Declining	☒	Stable	☐	Increasing

Explain in detail seller concessions trends for the past 12 months (e.g. seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs condo fees, options, etc.)

Seller concessions do exist in some cases, but is generally 3% or less in most cases. No use of buydowns in the marketplace was noted to be common practice.

Supply/demand remains relatively in balance for this area. Seller concessions are stable to slightly increasing and are not always included in the sale. It appears that seller concessions have been on slight increase in the recent past.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

Cite data sources for above information.

Data Sources: MLS ID = 697, State = Texas, MLS Board = HARMLS - Houston MLS, Matrix

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales, and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

There were a total of 107 Comparable Settled Sales in the past 12 months. The Median Sales Price for the prior 7-12 months was \$495,000 and for the current to prior 3 months is \$470,000. The Months Supply for the prior 7-12 months was 3.17 and 7.29 for the current to prior 3 month period. The Median Days on Market for the prior 7-12 months was 37 and 32.5 for the current to prior 3 month period. The statistics above were generated from an exported MLS market search.

Details regarding the calculations and process can be found online at <http://www.bradfordsoftware.com/1004mc/calc.shtml>

CONDO/CO.OP PROJECTS

If the subject is a unit in a condominium or cooperative project, complete the following: Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend					
Total # of Comparable Sales (Settled)				☐	Increasing	☐	Stable	☐	Declining
Absorption Rate (Total Sales/Months)				☐	Increasing	☐	Stable	☐	Declining
Total # of Active Comparable Listings				☐	Declining	☐	Stable	☐	Increasing
Months of Unit Supply (Total Listings/Ab. Rate)				☐	Declining	☐	Stable	☐	Increasing

Are foreclosures sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

TOTAL SALES AND LISTINGS

There were 12 sales twelve months ago and 9 sales last month. There were 23 listings twelve months ago and 68 listings last month.

MEDIAN SALES PRICE

The median price trends shown here may differ from the 1004MC due to the difference in reported time periods. One month ago the median was \$450,000. Twelve months ago the median was \$606,750. This is an aberation as there are monthly data points above and below the median price trend line. The median price trend line is flat to slightly declined. With demand/supply in balance and market times less than 60 days, the overall market is stable. No time adjustments are made as a result.

SALES TO LISTING PRICE RATIO

One month ago the median was 97%. Twelve months ago the median was 99%.

SALES DAYS ON MARKET TREND

The median was 60 one month ago and was 49.5 twelve months ago.

MONTH OF SUPPLY OF INVENTORY

One month ago the month's supply was 7. Twelve months ago the month's supply was 1.

Median Price Broken Into Marketing Time (Days On Market)

Days on Market (DOM)	Median Listing Price
0-50 Days	\$495,000
51-100 Days	\$530,000
101-150 Days	\$495,000
151-200 Days	\$510,000
201-250 Days	\$422,000
251-300 Days	\$423,000
301-350 Days	No Listings in this Time Period
350+ Days	\$397,000

The table displays the market's change in median sales price over the past year.

This chart shows the relationship between marketing time (how long a property is left on the market) and sales price.

This chart is especially useful for determining typical marketing times and how long it will take to sell for a given price.

APPRAISAL AND REPORT IDENTIFICATION

This Appraisal Report is one of the following types:

☒ Appraisal Report This report was prepared in accordance with the requirements of the Appraisal Report option of USPAP Standards Rule 2-2(a).

☐ Restricted Appraisal Report This report was prepared in accordance with the requirements of the Restricted Appraisal Report option of USPAP Standards Rule 2-2(b). The intended user of this report is limited to the identified client. This is a Restricted Appraisal Report and the rationale for how the appraiser arrived at the opinions and conclusions set forth in the report may not be understood properly without the additional information in the appraiser's workfile.

ADDITIONAL CERTIFICATIONS

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to parties involved
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- This appraisal report was prepared in accordance with the requirements of Title XI of FIRREA and any implementing regulations.

PRIOR SERVICES

- ☒ I have **NOT** performed services, as an appraiser or in another capacity, regarding the property that is the subject of the report within the three-year period immediately preceding acceptance of this assignment.
- ☐ **I HAVE** performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

PROPERTY INSPECTION

- I ☒ **HAVE** made a personal inspection of the property that is the subject of this report.
- I ☐ have **NOT** made a personal inspection of the property that is the subject of this report.

APPRAISAL ASSISTANCE

Unless otherwise noted, no one provided significant real property appraisal assistance to the person signing this certification. If anyone did provide significant assistance, they are hereby identified along with a summary of the extent of the assistance provided in the report.

ADDITIONAL COMMENTS

Additional USPAP related issues requiring disclosure and/or any state mandated requirements:

MARKETING TIME AND EXPOSURE TIME FOR THE SUBJECT PROPERTY

☒ A reasonable marketing time for the subject property is 30-60 day(s) utilizing market conditions pertinent to the appraisal assignment.

☒ A reasonable exposure time for the subject property is 30-60 day(s).

UNIFORM APPRAISAL DATASET (UAD)
Property Condition and Quality Rating Definitions

File No. 0360-26
Order# A-0035026

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: *Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).*

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: *The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.*

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: *The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. It's estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.*

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: *The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.*

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: *Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.*

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: *Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.*

UNIFORM APPRAISAL DATASET (UAD)
Property Condition and Quality Rating Definitions

File No. 0360-26
Order# A-0035026

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Requirements - Definitions of Not Updated, Updated and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components meet existing market expectations. Updates do *not* include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

Lender/Client MCM Capital Solutions Address 14100 Palmetto Frontage Road, Ste. 300, Miami Lakes, FL 33016

Property Rights The appraisal is based on Surface Rights only, being consistent with customary residential use. The determination or speculation by the appraiser concerning the impact, positive or negative, from the existence of mineral/oil/gas rights/leases associated with the subject property and the surrounding area (past, present or future), as well as other sub-surface rights including water, was not considered and analysis and speculation of such is not within the agreed and customary scope of appraisal for residential lending purposes. It should be noted, any such leases or sub-surface rights by other parties were not reported to the appraiser to exist, nor evaluated, and a separate assignment would be necessary for such analysis if deemed applicable. This appraiser is not competent to perform an analysis or develop a value of any air or subsurface rights. This is a known encumbrance to the Fee Simple Absolute which is also assumed of all sales and rental property used in the developed and reported approaches to value. This limitation to the surface rights only is not considered detrimental to the marketability of value of the subject as all comparisons, analyses and approaches developed and reported carry a similar encumbrance.

Use Of the Real Estate - The subject is noted to be residential property at the time of the appraisal. This is also reflected in the appraisal process.

Intended User The intended Users are limited to the client and Secondary Money Market (albeit Conventional, USDA, FHA, Fannie Mae, Sallie Mae or VA) as cited in the engagement. Under ECOA and TILA as of January 18, 2014, the borrower will be given a copy of this Appraisal Report. That disclosure obligation DOES NOT create an intended user relationship with the appraiser.

The appraiser has a confidentiality obligations that do not extend to the borrower. Any questions, the borrower may have about the Appraisal Report must filter through the engaging party, i.e. the client and/or the client's agent known as the AMC stated on the signed certification page. Any attempt on behalf of the borrower to contact the appraiser and bypass the legal process of revision requests or questions not answered or understood in the Appraisal Report will be considered by the appraiser an action of potential intimidation or coercion for the purposes of obtaining an inflated value. The appraiser will always be ready to reconsider a value, defend a value and communicate sufficiently and detail not understood in the Appraisal Report. However, it must be understood that request can only be achieved through the legal process of fiduciary (the obligation of agency relationship to the identified client stated in this Appraisal Report). For that reason, the borrower is hereby given this notice to forward all questions to the lender so the appraiser may address them as they are legally allowed.

FIRREA Certification Statement:

The appraiser certifies and agrees that this appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

"Compliance to FIRREA TITLE XI has been met to the extent such supervision is mandated by applicable regulations in this appraisal. In all other areas, given the nature of the assignment, the appraiser has adhered to the required assignment conditions of other Secondary Lending agencies. When identified by the appraiser and directed by the engagement of the client, the appraiser will adhere to those specific residential assignment conditions, i.e. Fannie Mae, FHA, VA or Sallie Mae depending upon the specific assignment condition. It is understood this adherence will be in keeping with the QM of the Safe Harbor Act as well as the Rebuttable Presumption of FHA in FHA assignments. I further attest that on the effective date of the appraisal and the date of the report I am an active licensed/certified appraiser in the state for which the subject of the appraisal is located."

Scope of Work: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

Intended Use: The intended use of this appraisal report is for the Lender/Client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

Intended User: The intended user of this appraisal report is the Lender/Client..

Highest and Best USE: Concludes maximum productivity of a site "as improved" Tests applied to the site as vacant and as improved are conclusions of Physical Possible Uses that are Legally Permissible and Economically Feasible. In the site section physical and legal characteristics are summarized as are the improvements in the Improvement section of the URAR. The conclusion is viable economic marketability and is reported in the URAR. From these analyses, the Appraiser concluded that the subject's present use is its Highest and Best Use.

Dodd-Frank Law of 2009: Appraiser Independence Compliance
Appraiser Certification of Non-Influence:

The Appraiser(s) noted in this report acknowledge to the best of their ability the following with respect to the completed appraisal report for the subject property noted in this report:

1) I certify that I have been engaged by the Lender/Client to complete the appraisal assignment. The order form included the company name (and any applicable DBA) as well as the company's address to include in the appraisal report. I was not provided any employee

name, including loan officer or mortgage broker. I was not provided a loan amount, estimated value or similar information by the Lender/Client. In the event that this is a purchase transaction, the entire Purchase/Sales contract was provided to me as required by USPAP.

2) I have not been coerced, intimidated, influenced, bribed or knowingly recommended to complete this appraisal assignment by an employee, director, broker, loan officer, manager or agent of the Lender/Client.

3) There have been no written or verbal communications or conversations between an employee of the Lender/Client or mortgage broker and myself, my assistant, or other employee working on my behalf in completing this appraisal assignment regarding a predetermined value of the subject property.

4) I have completed this appraisal assignment with the highest integrity and in an ethical manner consistent and in accordance with USPAP, applicable state law, as well, any FHA guidelines for Appraiser Independence.

5) I am not an employee of the Lender/Client or of any entity that is either wholly or partially owned by the Lender/Client.

COST APPROACH-The cost approach is generally used and considered to be more accurate when improvements are new or recent construction or are of a special use property. The Cost Approach is only appropriately used when there is available land for potential buyers to make construction of improvements that are similar to the subject and are a viable alternative to purchasing the subject. In areas where there is vacant land available similar to the subject that is not available to the purchaser, the reliability of the Cost Approach is limited. When the Cost Approach is used, it represents "replacement costs" and is for value purposes only. The site value is based on a review and evaluation of other site sales in the area. If no similar lot sales are available then the basis for land value is derived from what is reported in public records.

INCOME APPROACH The Income Approach is typically used when an area has a significant number of rental or investor type properties and these properties are purchased for the express purpose of being used as rental or income type properties. While there are rental properties in most areas, when a neighborhood or market area is predominantly owner occupied, it may not be appropriate to employ the income approach. If the approach is included in the report, it is because there is ample available data to conclusions based on the application of rental or income type properties.

METHODOLOGY OF THE DETERMINATION OF VALUE

The value determined is derived from the indicated values of the comparable sales included. These comparable properties are selected based on similarities of location, style, design, size, lot similarities and amenity levels. The reconciliation of these sales, including, the reconciliation of the settled sales compared to the listings is included in the appraisal and is a market based determination.

EXPLANATION OF ADJUSTMENTS IN GENERAL WITHIN THE APPRAISAL

When adjustments have been determined to be necessary, they are made based on paired sales analysis as noted in the appraisal or the regional adjustment ranges. Adjustments made for site/view are land value associated adjustments and are made based on similar land sales or, in cases where land sales are limited, public records are used for such basis. If there are differences in age between the subject and the comparable properties and no adjustment is made, it is due to the fact that the effective ages are felt to be similar. When adjustments are made under age, it is generally for significant differences in age (incurable depreciation), while condition adjustments remain similar. Condition adjustments are made when there is differences in updating (curable depreciation), and this is calculated based on estimated historical differences in the area. While it is not generally possible to accurately determine this factor either by paired sales analysis or regression analysis, we have to rely on prior market experience in this area to determine such adjustment. Room Count Adjustment factors are in general, not accurately extracted from the market based on paired sales or regression. In this case, we refer to the Regional adjustment ranges in order to provide some support for such adjustments. For living area adjustments, the factors are generally determined by the price per foot of the comparable properties, less lot value and/or depreciation. This methodology is market based and reflected by the comparable sales included. A reference to the Regional adjustment ranges is included. With regard to any adjustments made for garages/parking facilities, this generally includes differences in the number of parking bays and not differences in overall sizes of parking facilities. Again, when it is not possible to accurately prove these adjustments with paired sales analysis or regression, we use our prior experience in the area and the Regional adjustment factors to provide support for an adjustment for this difference. For adjustments made for differences in amenities, these adjustments are made if a comparable sale can be provided with a similar type amenity in the same market. This amenity may or may not be able to be supported by paired sales analysis or regression as there is generally not a large enough sample size of data with any one market to accurately determine the contributory effects of similar amenities in any given market. In this case, we are relegated to relying on prior experience and judgement of such in the market. At this point, the Regional adjustment ranges are relied upon.

While we strive to do everything possible to support our adjustments, in most cases, it is not possible to accurately reflect individual adjustments by either paired sales analysis or regression. In this case, we have no option but to rely on our prior experience in the market and any noted Regional adjustments ranges as factors for adjustments in our appraisals.

That Customer's use of this Report is subject to the terms agreed to by that Customer when accessing this product. THE SELLER OF THIS REPORT MAKES NO REPRESENTATIONS OR WARRANTIES TO ANY PARTY CONCERNING THE CONTENT, ACCURACY, OR COMPLETENESS OF THIS REPORT INCLUDING ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The seller of this Report shall not have any liability to any third party for any use or misuse of this Report.

Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
